## **Krakow nominated for the International Federation of Muaythai Amateur awards**

2015-10-14

**Over the years, Krakow has had multiple opportunities to host major sports events, attracting sports fans locally and from around the world.**

For over year, large sports events held in our city have become even more attractive, as many of them are now hosted by TAURON Kraków Arena - one of the most advanced multipurpose halls in this part of Europe. The Arena also housed the main fights of the European Muaythai Championship last September.

The event proved to be a major organizational success and the final fights attracted a full house to the venue. As a result, the International Federation of Muaythai Amateur nominated our city for its annual awards in two categories: Best Sport City and Best at Sustainability in Championships.

We encourage you to vote for Krakow! Votes can be cast at:
