Pastguide - new app will show you the maedieval Krakow

2018-05-08

Pixel Legend in cooperation with Historical Museum of the City of Krakow and Krakow Festival Bureau launched a new free app - Pastguide. It creates a 3D visualization of the Main Market Square from the times of King Casimir the Great (ruled between 1333 and 1370). App is available in AppStore and Google Play.

Pastguide is a unique app which that allows to view how the visited place looked in the past. It's based on a Pixel Legend's platform Emb3d enabling architects and designers to embed and visualize their designs in the real context of the location. At the first stage of Pastguide implementation it will present visualization of architecture prepared in cooperation with Historical Museum of the City of Krakow. Second stage adds maedieval costumes and interaction, including gamification elements to attract youngest users.

Pastguide is available for iOS and Android devices.
