Kraków - A City Wide Open

2026-08-11

The summer holidays are halfway through. Temperatures are high and so is our gratitude to all the readers for their continued interest in this website. We are also proud to say that the international versions of “Kraków the Open City” are proving popular!

Keep visiting us! We publish up-to-date and verified information on Kraków’s international achievements, the city’s international cooperation and a wide range of events co-organized by the City of Kraków.

During the traditional *slow news season*, it is also worth exploring the hidden corners of our website. In the Must See section, you will find not only valuable articles and interviews, but also plenty of interesting facts and stories.

We’re here for you this summer!
