Happy OWHC Day

2026-09-08

Inhabitants of Kraków send their warmest greetings to all OWHC member cities and wish them every success in managing heritage in a way that safeguards its Outstanding Universal Value while ensuring the best possible quality of life for local communities.

We believe that sharing knowledge and experience through OWHC is one of the most meaningful ways to care for our common heritage and to uphold its value for generations to come.

On 8 September, an open-air exhibition dedicated to historical monuments was opened in Kraków's Szczepański Square to mark the occasion; it serves as a reminder of the physical costs of intangible values.
