Kraków fights against the coronavirus related crisis

2020-06-05

Kraków offers assistance and support to branches threatened by the epidemic in their fight against the coronavirus associated crisis.

The restrictions aimed at stopping the epidemic spread redefine all the fields of the city life. Krakow-like other world metropolises - develops own crisis management strategy consisting of a number of programmes and initiatives. Rent reduction and deferment of local tax payments offered to Krakow businesses, grants for artists, discounts for sports clubs or donations for private nurseries constitute only a part of the assistance programme prepared by Krakow for residents and businessmen whose financial situation has become worse due to the epidemics.
